Since 1978 Quality Resins

More than 40 years after its creation, the company operates internationally in two different areas of intervention: that of industrial resins, with the **Pav-Ind** brand and that of decorative and artistic resins, with the **Pav-Art** brand, both for interior flooring for outdoor paving.

Experience, research, constant monitoring of the market, improvements in quality, assistance and attention to the customer needs are all features that contribute to making Pava Resine a highly qualified supplier, a point of reference and the ideal partner for protection requirements in every sector of application, whether decorative or industrial.

Recent environmental awareness as well as bio architectural demands have led pava resine, supported by qualified university institutes as the department of environmental science of Ca' foscari university in Venice, forefront in green chemistry, to create and develop the new range of bio-resins compositions "Pava-Bio" (patented modified bio-based resins), a new technology, based on the use of resins extracted from biomasses, and not by usual fossils fuels (petroleum), all with respect for nature, environment and health.
